

Four Ways To Optimize Your Private Cloud

1

ACCOUNTABILITY

An intelligent track-back report that holds users accountable by way of charge-back

2

CONTROL

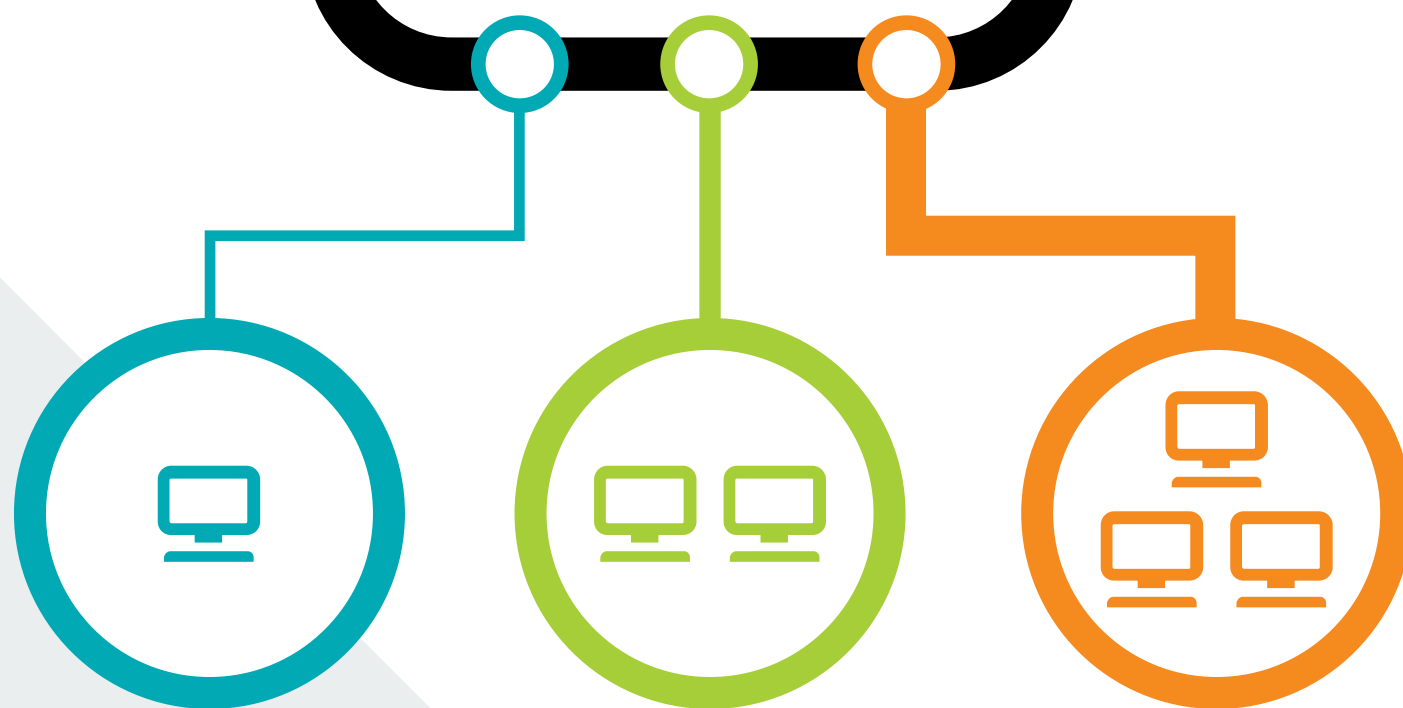

Automated management of the networking storage and/or data center

3

EFFICIENCY

Must be able to cut server provision time from

2 weeks to **15** minutes

4

CHOICES

A self-service catalog of standard computing offerings is available to users across the company

WITH AN OPTIMIZED PRIVATE CLOUD, YOU ARE MORE ABLE TO DECREASE TCO, PROTECT YOUR DATA, MAINTAIN COMPLIANCE TO DATA SOVEREIGNTY LAWS AND INCORPORATE NEW AND EXISTING IT INVESTMENTS.
