Make sure your AMD boxed processor is authentic.

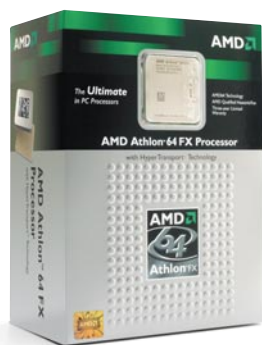

Enjoy extraordinary performance and peace of mind when purchasing AMD boxed processors.

Each genuine AMD boxed processor includes:

- A high-performance AMD processor
- An AMD qualified heatsink/fan
- A three-year limited warranty

How do you know you're getting a genuine AMD boxed processor? Look for the holographic label on the bottom left corner of the packaging, and always purchase through an authorized AMD distributor or dealer.

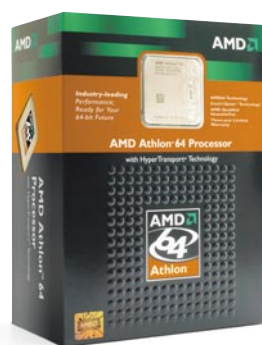

For more information on security features for AMD boxed processors, or to report a non-authentic AMD processor, visit: www.amd.com/PIBsecurity

AMD Athlon™ 64 FX processor

The ultimate in PC processors

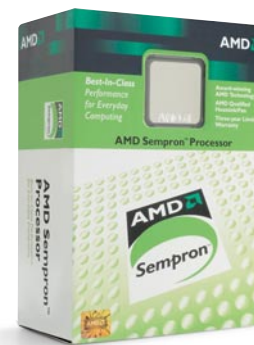

- Full-throttle 64-bit architecture enables a cinematic computing experience
- HyperTransport™ technology to increase overall system performance
- Cool'n'Quiet™ technology to minimize heat and noise for a better working environment
- Enhanced Virus Protection for Microsoft® Windows® XP SP2

AMD Athlon 64 processor

Leading-edge performance with readiness for the 64-bit future

- HyperTransport technology to increase overall system performance
- Cool'n'Quiet technology to minimize heat and noise for a better working environment
- Enhanced Virus Protection for Microsoft Windows XP SP2
