

# AMD Validated Server

Platforms and Partners for Quality Server Solutions

Learn how to streamline development and speed time to market at [www.amd.com/validatedserver](http://www.amd.com/validatedserver)

**High-quality, reliable servers you can build on immediately.**

Getting servers you can count on has never been easier. With the AMD Validated Server program you have a clear choice of high-quality, reliable and stable server solutions – all based on state-of-the-art, Single- and Dual-Core AMD Opteron™ processors. Plus, you get the service and support of our world-class manufacturing partners.

Your participation in the AMD Validated Server program is virtually risk-free. You can trust that all AMD Validated Server platforms have been thoroughly tested for quality, compatibility, longevity and stability. What's more, the platforms are backed by global partners that have been carefully chosen and validated by AMD.

# Simplify your business.

## AMD Validated Server solutions offer quality, compatibility, longevity and stability for your business.

- Single- and Dual-Core AMD Opteron™ processor-based server platforms, featuring AMD64 technology with Direct Connect Architecture for industry leading performance, performance per watt and seamless 32- to 64-bit migration.
- “Barebones” configurations designed for easy integration, freeing you to concentrate on your core business.
- An extensive list of peripherals, memory and other components tested and validated for server compatibility.
- World-class manufacturing, service and support.

## Why the AMD Validated Server program?

Put simply, AMD Validated Server platforms deliver proven configurations that work right out of the box.

Using AMD Validated Server solutions can help you:

- Streamline your development cycle
- Accelerate your time to market
- Focus on customer service and support
- Achieve a real competitive advantage
- Boost satisfaction with proven performance

Validated Server

AMD Opteron™ processors can help simplify business and minimize integration complexities with the delivery of a flexible architecture. This evolutionary processor provides a dramatic leap forward in compatibility, performance, investment protection and reduced cost of ownership (TCO). Get updates on the growing AMD Validated Server solutions based on the AMD Opteron processor. Subscribe today at [www.amd.com/amdopteronolutions](http://www.amd.com/amdopteronolutions).
