

ATI Radeon™ HD 4800 Series Launch

Partner Quotes

“Speaking as a gamer, the idea of cinema-quality game play is incredibly compelling for me. The fact that the new ATI Radeon™ HD 4850 and ATI Radeon™ HD 4870 deliver the performance to reach that level of realism is incredible. In addition, their use of cutting edge technologies such as tessellation and DirectX 10.1 demonstrate their commitment to constantly raising the bar on The Ultimate Visual Experience.™”

- Randy Copeland, President & CEO, Velocity Micro, Inc

“We are excited about offering the ATI Radeon™ HD 4800 series graphics cards in our award-winning luxury computers. AMD has hit on a compelling blend of price and performance, offering an incredible high definition 3D experience in today’s games with performance to spare.”

- Chris Morley, Strategic Director, MAINGEAR Computers

“It is remarkable that we are now able to build high performance gaming PCs with over 1 TeraFLOPS of compute power inside. With that kind of performance and the addition of visual enhancements made possible by DirectX 10.1 and tessellation, gamers can now achieve cinema-quality realism. It’s an incredible step forward in gaming and Alienware is looking forward to introducing the ATI Radeon™ HD 4800 series in the near future.”

-Patrick Cooper, Director, Product Planning, Alienware

“The new ATI Radeon™ HD 4800 series cards have really impressed us in a lot of areas. In performance, the ATI Radeon™ HD 4850 and ATI Radeon™ HD 4870 are incredibly competitive at their respective price levels. They are amazingly power efficient with low fan noise for this level of performance as well. To cap it off, the driver support is solid. The ATI Radeon HD 4800 series represents a huge leap forward for ATI.”

- Kelt Reeves, President, Falcon Northwest
