

**INDUSTRY ENDORSEMENT QUOTES
FOR THE MOBILE AMD ATHLON™ XP-M PROCESSORS**

"The exceptional power management capabilities, advanced functionality and performance of ATI's MOBILITY RADEON family combined with the new mobile AMD Athlon™ XP-M processor, delivers outstanding power, versatility and value to mobile users."

*—Reuven Sorava, director of marketing,
Mobile Business, ATI Technologies, Inc.*

"GERICOM intends its 'BLOCKBUSTER' system to be an outstanding choice for our customers. It features the new mobile AMD Athlon™ XP-M processor 2400+ for high performance and AMD PowerNow!™ technology which helps extend system battery life, so our customers can get their work done whether in the office or traveling."

—Hermann Oberlehner, GERICOM

"We believe the new mobile AMD Athlon™ XP-M processor provides consumers greater choices in building a PC that meets their needs. SiS is developing a full range of products, such as SiS740, SiS746FX and SiSM741, to pair with AMD's new mobile solution to bring out the best performance and computing power to our customers."

—Michael Chen, president, Silicon Integrated Systems Corp.

"AMD mobile processors help us provide our customers with the mobility and choice they need to get their work done no matter where they are. V500 is designed to help notebook PC users stay connected and boost productivity."

*—Jun-Jie Huang, general manager of Notebook Computer
Business Development, Tsing Hua Unisplendor*

"By using the low-voltage AMD Athlon™ XP-M processor, we were able to design a thin-and-light notebook that will bring excellent performance and mobility to our customers. Today's notebook users expect the ability to get their work done anytime, anywhere, and that's what the Twinhead system provides."

—David Chang, CEO of Twinhead International Corp.

"VIA is pleased to provide full chipset support for the innovative range of mobile AMD Athlon™ processors, continuing our strong commitment to the AMD platform. The launch of the new mobile AMD Athlon XP-M processors will enable professional users and consumers alike to enjoy a much richer choice of notebooks that meet the specific needs of their increasingly mobile lifestyle."

*—Richard Brown, associate vice president of marketing,
VIA Technologies, Inc.*

"With the new high-performance mobile AMD Athlon™ XP-M processors, our TARGA Visionary XP allows our customers to do their work anytime, anywhere. "Our customers are looking for extended mobility, which is provided by AMD PowerNow!™ technology, and an overall excellent computing experience."

—Matthias Klauke, vice president, Actebis International
