ThinkPad X13 Gen 3

Powered by up to AMD Ryzen™ 7 6000 PRO and boasting integrated Radeon™ 600M Graphics, the refreshed ThinkPad X13 Gen 3 perfectly marries high performance with ultra-portability. Built to amplify business computing for the hybrid workforce, this powerful next-gen laptop delivers the most modern security features and enterprise-class productivity solutions.

Confidently tackle the day with this work-from-anywhere laptop, with its Wi-Fi 6E[1] connectivity and optional 5G, plus built-in ThinkShield security features to ensure your work and identity are protected. The improved FHD RGB camera, a 16:10 narrow bezel display, and Dolby Voice elevates the user experience, delivering more immersive and clearer video collaboration. Plus, low blue light display options mean minimal eye fatigue when those extra hours are a must.

[1]16GHz Wi-Fi 6E operation is dependent on the support of the operating system, routers/APs/Gateways that support Wi-Fi 6E, and the regional regulatory certifications and spectrum allocation.

AMD RYZEN PRO

Smarter technology for all

Lenovo

ThinkPad X13 Gen 3

MOBILITY FOCUSED

Starting at 18.1mm and 1.19 kg (2.62 lbs), the ThinkPad X13 Gen 3 is built for the portability and performance expected by today's hybrid workforce, with long-lasting battery life and next-gen 5G and Wi-Fi 6E capability[1].

ENHANCED USER EXPERIENCE

With an expanded scope of the FHD RGB camera plus Dolby Voice for immersive, clear video conferencing, the ThinkPad X13 Gen 3 enriches virtual collaboration in the modern workplace. The low blue light WQXGA display option means no more tired eyes when the productivity just can't stop.

UNMATCHED PERFORMANCE

The ThinkPad X13 Gen 3 delivers powerful mobile productivity with up to AMD Ryzen™ 7 6000 PRO, integrated Radeon™ 600M Graphics, up to 32GB LPDDR5 memory, and up to 1TB Value PCIe Gen 4 storage.

REDEFINED DESIGN

The refreshed ThinkPad X13 Gen 3 delivers a narrow 16:10 panel design with 84% screen-to-body ratio and choice of Thunder Black or a stunning Storm Grey aluminum finish with tone-matching keyboard. User-facing audio with larger speaker, a wide 115mm TouchPad, and power-on touch fingerprint reader make this ultra-portable clamshell ideal for the hybrid workforce.

durability

MIL-SPEC tested with 12 methods, 26 procedures, and 200 additional quality checks, the ThinkPad X13 Gen 3 is designed for WFA durability and engineered with reliable, long-lifecycle components.

security

Enhanced integrated ThinkShield features, like the camera shutter, optional PrivacyGuard, and power-on touch fingerprint reader, keep your data yours in the hybrid work environment. Plus, chip-level AMD Memory Guard and the new Microsoft Pluton security layer help eliminate interface exposure and prevent physical attacks.

sustainability

The ThinkPad X13 Gen 3 uses sustainable packaging[2], as well as PCC recycled material for the battery brackets, speaker enclosures, and AC adaptors. All Lenovo devices are manufactured using low-temperature solder for reduced emissions. And by 2025, Lenovo aims to obtain 90% of electricity for global operations from renewable sources and remove one million tons of greenhouse gas emissions from the supply chain.

[1]16GHz Wi-Fi 6E operation is dependent on the support of the operating system, routers/APs/Gateways that support Wi-Fi 6E, and the regional regulatory certifications and spectrum allocation.

[2]Product packaging shall contain, on average, a minimum total percentage of 90% by weight of any combination of the following materials: Recycled content, biobased plastic, non-wood biobased fiber material, and/or sustainably forested material.

Services

Lenovo offers a comprehensive portfolio of end-to-end services to support and protect your investment—so you can focus on the job at hand, not IT.

PREMIER SUPPORT

As IT budgets contract, you need to reduce complexity, decrease operational costs, and find ways to increase efficiency from your in-house IT support teams. Lenovo™ Premier Support manages routine support tasks, freeing IT focus on strategic efforts that move the organization forward. Boost end-user productivity and limit downtime with direct access to elite Lenovo engineers who provide unscripted, advanced hardware and software support.

CO_2 OFFSET SERVICE

As an option with the hardware purchase, the Lenovo CO_2 Offset Service gives customers a simple and transparent way to give back to the environment by helping them offset the carbon emissions associated with their Lenovo PC. With it, Lenovo has calculated the carbon emissions of its PCs across their lifecycle, from manufacture and shipment, all the way through usage and disposal. Carbon offset credits are later purchased based on the calculated emissions of the specific device, and Lenovo's carbon offset partner contributes them to one of several United Nations Climate Action projects.

BULK PACKAGING SERVICE

Bulk Packaging is an environmental packaging solution designed for multiple product types. Each package contains multiples of one like-type product to minimize the amount of material used without jeopardizing the integrity of packaging necessary to protect product in shipping process.

Accessories

Lenovo Business Casual 13-Inch Sleeve Case

This quality storage solution is fit for any style-conscious on-the-go professional. Safely store your laptop, power bank, mouse, and other accessories in this multi-pocket sleeve with water-resistant polyester exterior and padded internal compartments.
